

UNIVERSITEIT VAN AMSTERDAM

## **PRE ANNOUNCEMENT INVITATION to INSIGHTS IN COMPLEXITY**

The ICCO Alliance cordially invites you –also on behalf of our partners in research programme\*- to join the presentation

### **INSIGHTS IN COMPLEXITY**

*Possibilities for scaling –up a bottom-up evaluation approach*

The presentation concerns the intermediate results of the research project on *participative impact assessment*.

In the afternoon of September 15, from 14.00 – 17.00, in Utrecht (ICCO) we present the main findings of 3 rounds of research.

Topics are: insights in valuation of impact of development initiatives by local people; a wealth categorization tool for stratification of beneficiaries' opinions and a tool box for use in evaluation studies with a participatory component and assessment exercises for Southern NGOs based on a participative approach.

There will be ample room for discussion and sharing of thoughts.

Further information will follow in the end of August. You can already register by sending a mail to Mieke van Eck van der Sluijs, [Mieke.van.Eck.van.der.Sluijs@icco.nl](mailto:Mieke.van.Eck.van.der.Sluijs@icco.nl).
